

500 Word Essay on Why I Deserve a Scholarship

The value of education is something that I have understood since a very young age. Neither of my parents had an opportunity to attend college, and faced many struggles in their personal and professional lives because of this. They made a commitment early in my life to do everything within their power to instill in me a love of learning and an understanding of the importance of hard work and dedication.

Because of their love and sacrifice over the years, I have been able to devote the time and energy necessary to academic accomplishment even though money has always been tight. In my senior year at XYZ High School, I have a 3.9 grade-point average and have been named Salutatorian of my graduating class. In addition to focusing on my own studies, I also worked as a math and science tutor throughout my years in high school as a way of contributing to my family's budget.

Additionally, I have also been active in my school and community outside of the classroom, serving on the student council as Secretary Treasurer for two years, serving as an officer in the Future Engineers of America chapter at my school, and volunteering at a local Boys & Girls Clubs of America chapter during school breaks.

My family has made many sacrifices to allow me to focus on education throughout primary and secondary school. I now have an opportunity to become the first person in my family to attend college, though I'm in need of financial assistance to realize what has been a long-term goal for me and a dream for my parents.

If selected for this scholarship, I will continue to apply the same diligence to my collegiate studies as I have to this point, making education and service to others my top priority. I will represent your organization well during my years in college and beyond. Thank you in advance for your consideration.
